Tr By one of the amendments to the Constitution, the May session of the General Assembly, for the organization of the government, and the transaction of other business, will be held in this city on the last Tuesday in May, instead of the first, as heretofore. This will be a much more pleasant season of the year for the wise men to gather in Council; there are but few of the old members in either the Senste or House, and but very few who have ever had any experience in Lugislation,consequently, as the Almanac makers say,-some funny blunders may be expected about this time.

13 The election for city officers takes place one week from to-morrow; judging by the vote at the recent State election we presume that the Know Nothings will have things all their own way. We hope that they will make judicious selections, and have some regard as to the competency of the men whem they place in power. In the present state of things it will be useless for the Whigs or Democrats to make neminations.

Among the passengers by the Black Warrior from New York, vesterday, for Havans, was Gen. Edward F. Newton, of this city.

The Artillery Company will give a Hop at their Armory to-morrow evening a pleasant time may be anticipated.

Tr The Providence Methodist Conferance has been in session in this city since Wednesday, Bishop Janes presiding. There are over 100 clergymen in attendance. The pulpits of many of the churches were supplied by these gentionen last Sung

The Rey, Dr. Choules has gone to Savannah, having received an invitation to deliver his lectures on Cromwell in thecity; he will be absent about two weeks.

FLATTERING .- The Woonsocket Patric in noticing a lecture upon the "Ele quonce of Shakspeare," by a young law year of that village, says "Had he turne his attention to the stage, instead of th law, there would surely have been a playe among us of mean distinction."

Mertin Van Buren, Jr., died at Paris o the 20th ult., of consumption. Although his recovery had long been despaired or still his death was very sudden. He ha scated himself at the dinner table, when hi head fell forward on his breast, and he expired without a word, or a groat. His re mains were temporatily deposited in th Cemetery of Montmatre. A large number of Americans attended them to the tomiand a touching address was delivered b the Paster Cognerel.

Binns -The Washington Intelligence of a recent date states that "robbins at this week for sale in the markets of th city at fifty cents a dozen. Any perso who will encourage the killing of thes, little birds by purchasing them too food, ought to be not on an allowance of bree and water the remainder of his nature life, and be compelled to listen to filing a a saw. - Pawtucket Chron.

SLAVE TRADE,-Prof. 1 plum, of Boy doin College, has published a letter r cried from Mr. Thompson, Missionary at Kan Mendi, Africa, which pronounces the stronghold of the slave trade free from it traffic. A large church exists, whose i. fluence is felt for sixty miles. The peop in all the vicinity are argently asking t miasionaries.

"You owe me five dollars for that c pinion you had of me " Said Squir B---ta & client,

"No I dou't," said the man, " for never had any opinion of you."

From the Washington Star of Friday.

THE PROPOSED SEARCH IN THE ARTIC SEAS FOR THE KANE EXPEDITION.-The stemmer (propeller) which is to form one of the vessels of Lieut. Hartsiein's Arctic expolition, is being fitted out with great energy at Philadelphia navy yard. She will be ready to take her departure from the Delaware as early as the 15th proximo, to sail finally from New York on the 1st of June Lieut, Hartstein is now in Washington, arranging with the department points concerning the personnel of the expedition.

The Naval Medical Board, now in session in Philadelphia have concluded the examination of the condidates for promotion to the grade of Passed Assistant Surgeons. There were five in number, and ure all understood to have passed. The candidates for admission-some 25 or 30 in number-are now to be examined. The board is expected to be in session for a month or so longer.

PROMOTIONS AND APPOINTMENTS IN THE U. S. R. VESUE MARINE SERVICE.—Second Lientenant Joseph Amazeen to be first lieutenant, vice W. N. J. Godwin, resign-

Third Lieut. Henry C. Hunter, to be second lieutenant, vice Joseph Amazeen,

Samuel B. Caldwell, of Connecticut, to be a third lieutenant, vice Henry C. Hunter, promoted.

George Walden, of Maine, to be a third licutement.

Accounts of the Late Collector Richardson .- It turns out that, according to the books of the treasurer, Jacob Richardson, late collector at Oswego, N. Y., is a defaulter to the tune of \$202,000, for the recovery of which has bill is now being sued. The aggregate amount of the bonds under which Richardson's defalcation occurred is but \$45,000, which will doubtless he recovered, and, perhaps, something more. It will be recollected that Richardson died not long'aince, in Canada.-Wash.

Australia.-The troubles in Australia are over. The insurgent miners were put down by the regular troops, aided by the militia. The Colonial Secretary, who was nopopular, has resigned. A commissioner has been appointed to examine into the grievances complained of, and the government has pledged itself to afford all needed

Important Decision by the U. S. Supreme Court .- Some years ago the Secretary of the Treasury directed that duty should be charged upon the paintings imported by Mr. Boker, known and exhibited as the "Dusselpaid and suit was commenced in the Circuit Court here for its recovery, in amount about \$3,000. The decision was in favor of the claimants, that the paintings were entitled to free entry for exhibition. This decision not being acquisced in by the Treasury Department, the case was appealed to the U. S. Supreme Court. The decision of the Circuit Court has now been affirmed, by which decision the importers are entitled to have refunded to them the duties paid upon the paintings.

The Numery Committee of the Massachusetts Legislature have commenced their Investigation. The editors of the Daily Advertiser were examined. Charles Hale testified that he wrote the article in that nuper, that he received the information from the ladies of the relicul, and from the wirl that was sick in bed when the members of the committee entered her chamber. The committee issued a summons for the ladies to attend, and adjourned.

Estrampes was executed by the garrote, at ready been rented .- [Newark Daily.] Havana, on the 31st. He was a naturalized citizen of the United States. Doubtless he was guilty but he was not tried in accordance with the treaty which guaranties an open trial. The intercession of the United States Consol was in vain. Twenty thousand people witnessed the execution. He conducted himself with great firmness, and attemped to address the people, hat his voice was drowned by the rolling of the drums.

I A strong association of the liquor dealers in New York has been formed to contest the constitutionality of the new liquor law.

A Model Juny .- We saw in one of our English exchanges that two men were lately indicted at the Stafford sessions for stealing port wine. They went to the White Hart cellar, and having got drunk, stole a bottle of port from the bin and hid it. It was deemed essential that the jury should decide whether the stolen wine was actually taken from the bin in question, and this could only be done by tasting. Two battles were accordingly handed up, but so difficult was the point that the jury were unable to arrive at any satisfactory decision until they had finished both bottles. They tion convicted the prisoners-on which the prisoners' counsel remarked that it they had not done justice to their clients, they had certainly done justice to the wine.

NECK OF NOTHING.-The Newburyport Herald Haye :

"If Napoleon goes to the Grimes, It is for no boy's play. He is to be a here or a victim. He is to wipe out the recollections of Moscow, or to be buried in a worse then Moscow's rains. He is to be muster of Europe, or he is to be nothing in Europe from henceforth. He is to live forever in the glory of a successful act, or he is to die in disgraceful defent. There is no half way. What he does he is to do him elf by one grand demonstration with French troops-not with allies, for England can do little more than convey him to the East. Whether he succeeds or falls, this movement is to be disastrous to the existing governments. If he falls, who succeeds?
---and what are the allies but the depend-encies upon Russia? If he succeeds, will he be satisfied to humble the Czar? He remembers Moscow-will he not afterwards remember Waterloo and St. Helena? Will England be better in his view than Russia? No wonder they . aonstrate-no wonder they stand against at the proposition!"

THE NEW REGIMENTS IN THE ARMY. Orders have been issued from the War Department assigning the rank of the several officers in the four new regiments. We quote the following from the orders of the

"The headquarters of the first and second regiments of cavalry will be established at Jefferson Barracks, Missouri, and Louisville, Kentucky, respectively; the headquarters of the minth infantry at Fort Monroe, Virgina, and of the tenth regiment at Carlist: Barracks, Pensylvania. The recruiting for the new regiments will be conducted under the superintendence of their colonels, to whom all the officers appointed will accordingly immediately report by letter, giving their address and suggesting the places in their neighborhood where recruitng rendezvous could probably be opened ito the best advantage.

"The first and second regiments of esvalry will be uniformed as the present regiment of dragoons, except the trimmings of the cap and coat, which will be yellow instead of orange; the ninth and tenth regiments of infantry (riflemen) as the other regiments of intentry, with the exception of the knapsack straps and waist belt, which will be according to patterns in the quartermaster's and ordhance departments. They will also be furnished with bugles instead of drums.

SALERATUS .- What is saleratus? Wood a burned to ashes; ashes are lixivatedley is the result. Ley is evaporated by boiling-black salts is the residuum. The salts undergo purification by fire, and the or process we change potash into pearlash.

Now put these in sacks and place them over a distillery wash tub, where the fermentation evolves carbonie acid gas, and the penriash absorbs it and it is rendered solid; the product being heavier, drier and whiter than the pearlash. It is now saleraius.

How much salts of ley, and carbonic seid a human stomach can bear and remain healthy, is a question for a saleratus

The prohibitory law having been passed by the N. Y. Legislature, Jerse) city and Hoboken will now become the rendezvous of the rumsellers, blacklegs, and fighting men in New York city.
